Double Hood

Silanos double hood allows to wash 2 50x50 baskets simultaneously giving the operator the opportunity to choose based on work drops using the right or the left side only thanks to 2 independent washing pumps.

- Multifunctional control panel with high-resolution colour display
- 4 Configurable wash times
- Temperatures adjustable from the technical menu
- Chemical dosage adjustable from the control panel
- Multicolour cycle start identifying washing phases
- Cost reduction through the economy function that activates after 20' of non-use
- Self-diagnosis for anomalies
- Register meter kwh

Control panel	Electronic Evo2
Body	Double-skinned
Engineering plastic	Stainless steel
Wash arms	Stainless steel
Dimensions (mm)	1,181x796x1,500
Height hood open (mm)	1,950
Usable wash height (mm)	405
Door height (mm)	430
Basket (mm)	2x 500x500
Wash tank (lts)	60
Water usage (lts p/c)	4.7
Wash pump (kW)	2x 1.1
Tank element (kW)	7.5
Boiler element (kW)	20
Total installed power (kW)	22.2
Cycle time (sec)	60/120/180/480
Hourly production (baskets/h)	60/30/20/8
Voltage	400V/3N/50Hz
Noise level (dBA)	70
Weight (kg)	200

Supplied with: 1 inlet pipe, 1 drain pipe, 1 rinse aid pipe. Baskets: 4x18 dish baskets, 2 universal baskets and 4 cutlery baskets.

Available options:

- Built-in automatic drain pump
- Built-in water softener
- Peristaltic detergent dispenser
- Superinse for nebulised rinsing
- Condensate

The mickey system allows for smooth opening/closing movements and prevents users from forcing the hood onto a poorly placed basket or on body parts accidentally placed in the machine.

This system passed a life test (100,000 openings) without showing any signs of significant wear thanks to innovative antifriction technopolymers in teflon and acetalic resin.
